Alexander Youcis

Curriculum Vitae

✉ *alex.youcis@gmail.com*

Education

2013 **Bachelor's degree**, *University of Maryland, College Park*.

2013–2019 **PhD**, *University of California, Berkeley (advised by Sug Woo Shin)*.

Positions held

2019-Present **Postdoc**, *Institute of Mathematics of the Polish Academy of Sciences*.

Teaching Experience

2013–Present Graduate Student Instructor, University of Californa, Berkeley

Summer 2017 Instructor for number theory (Math 115), University of California, Berkeley

Summer 2018 Instructor for number theory (Math 115), University of California, Berkeley

Research interests

Arithmetic geometry and global methods used in the Langlands program. In particular: Shimura varieties, p-adic Hodge theory, p-adic geometry, and endoscopic methods.

Papers

A. Bertoloni Meli and A. Youcis, *The Scholze-Shin conjecture for Unramified Unitary Groups I: The No Endoscopy Case*

A. Youcis, *The Langlands-Kottwitz-Scholze method for Shimura varieties of abelian type*(In preparation)

E. Beazley, M. Nichols, M. Park, X. Shi, and A. Youcis, *Bijective projections on parabolic quotients of affine Weyl groups*, Journal of Algebraic Combinatorics (2014), DOI: 10.1007/s10801-014-0559-9

Professional activities

2014-2017 Founded and ran the Berkeley Directed Reading Program (a program to pair undergraduate and graduate students for independent study)

2014-2017 Mentor in the Berkeley Directed Reading Program

Conference and seminar talks

2017 Étale morphisms for perfectoid spaces, Arizona Winter School

2017 Étale morphisms for perfectoid spaces, University of Tokyo

2018 The Langlands–Kottwitz–Scholze method for Shimura varieties of abelian type, University of Tokyo

2018 The Langlands–Kottwitz-Scholze method for Shimura varieties of abelian type, Stanford University

2018 The Langlands–Kottwitz-Scholze method for Shimura varieties of abelian type, University of Minnesota

2018 The Langlands–Kottwitz–Scholze method for Shimura varieties of abelian type, University of Maryland

2019 The Scholze–Shin conjecture for unramified unitary groups, University of Cambridge

Awards and fellowships

2009 Harry Muchnic Award,Drexel Math Department

2012 Strauss Scholarship, University of Maryland, College Park Math Department

2013 Outstanding Senior Award, University of Maryland, College Park Math Department

2015 Berkeley Summer Fellowship

2016 Berkeley Summer Fellowship

2016 Berkeley Fall Fellowship

Fall 2017 Berkeley RTG Grant Fellowship

Fall 2018 Berkeley RTG Grant Fellowship
