

Alexander Youcis

Curriculum Vitae

✉ alex.youcis@gmail.com

📄 <https://sites.google.com/view/alex-youcis>

Positions held

- 2021–Present **JSPS Fellow**, *University of Tokyo*.
2019–2021 **Postdoc**, *Institute of Mathematics of the Polish Academy of Sciences*.

Education

- 2013–2019 **PhD**, *University of California, Berkeley* (advised by Sug Woo Shin).
2013 **Bachelor's degree**, *University of Maryland, College Park*.

Research interests

Arithmetic geometry, representation theory, and local/global methods used in the Langlands program. In particular: Shimura varieties, moduli spaces of local Shutkas, p -adic Hodge theory, p -adic geometry, p -adic representation theory and endoscopic methods.

Published papers

- A. Bertoloni Meli, N. Imai and A. Youcis. *The Jacobson–Morozov Morphism for Langlands Parameters in the Relative Setting*, International Mathematics Research Notices (2023), DOI: <https://doi.org/10.1093/imrn/rnad217>
- A. Bertoloni Meli and A. Youcis. *An approach to the characterization of the local Langlands correspondence*. Represent. Theory 27 (2023), 415–430.
- P. Achinger, M. Lara, and A. Youcis. *Geometric arcs and fundamental groups of rigid spaces*. J. Reine Angew. Math. 799 (2023), 57–107. MR4595307
- P. Achinger, M. Lara, and A. Youcis. *Specialization for the pro-étale fundamental group*. Compos. Math. 158 (2022), no. 8, 1713–1745. MR4490930
- E. Beazley, M. Nichols, M. Park, X. Shi, and A. Youcis. *Bijjective projections on parabolic quotients of affine Weyl groups*, Journal of Algebraic Combinatorics (2014), DOI: [10.1007/s10801-014-0559-9](https://doi.org/10.1007/s10801-014-0559-9)

Preprints

- K. Česnavičius, and A. Youcis. *The analytic topology suffices for the B_{dR}^+ -Grassmannian* (Submitted). <https://arxiv.org/abs/2303.11710>
- P. Achinger, M. Lara and A. Youcis. *Variants of the de Jong fundamental group* (Submitted). <https://arxiv.org/abs/2203.11750>.

A. Bertoloni Meli and A. Youcis, *The Scholze–Shin conjecture for Unramified Unitary Groups I: The No Endoscopy Case*, <https://alex-youcis.github.io/ScholzeShinIMPAN.pdf>

Youcis, Alexander Frank The Langlands–Kottwitz Method and Deformation Spaces of p -Divisible Groups of Abelian Type. Thesis (Ph.D.)—University of California, Berkeley. 2019. 192 pp. ISBN: 978-1085-79410-7, ProQuest LLC

Awards and fellowships

- 2022 Long term JSPS fellowship
- 2021 Short term JSPS fellowship
- 2018 Berkeley RTG Grant Fellowship
- 2017 Berkeley RTG Grant Fellowship

Professional activities

- 2014–2017 Co-founded and administered the Berkeley Directed Reading Program (a program to pair undergraduate and graduate students for independent study)
- 2014–2017 Mentor in the Berkeley Directed Reading Program
- Refereeing and quick opinions (Forum of Mathematics Pi, International Mathematics Research Notices, Algebra and Number Theory)

Selected talks

- 2023 Conference on Arithmetic and Cohomology of Algebraic Varieties, Hanoi | *A prismatic characterization of integral canonical models of Shimura varieties of abelian type*
- 2023 University of Maryland, Lie Groups and Representation Theory Seminar | *A prismatic realization functor for Shimura varieties of abelian type*
- 2022 University of Michigan | *A prismatic realization functor for Shimura varieties of abelian type*
- 2022 POSTECH | *A prismatic realization functor for Shimura varieties of abelian type*
- 2021 University of Tokyo number theory seminar | *Geometric coverings of rigid spaces*
- 2021 University of Alberta arithmetic geometry seminar | *Geometric coverings of rigid spaces*
- 2021 RAMpAGe seminar | *Geometric coverings of rigid spaces*
- 2020 CARTOON conference | *An approach to characterizing the local Langlands correspondence over p -adic fields*
- 2019 University of Cambridge | *The Scholze–Shin conjecture for unramified unitary groups*
- 2019 University of Warsaw | *The Scholze–Shin conjecture for unramified unitary groups*
- 2018 University of Maryland | *The Langlands–Kottwitz–Scholze method for Shimura varieties of abelian type*

- 2018 University of Minnesota | *The Langlands–Kottwitz–Scholze method for Shimura varieties of abelian type*
- 2018 Stanford University | *The Langlands–Kottwitz–Scholze method for Shimura varieties of abelian type*
- 2018 University of Tokyo | *The Langlands–Kottwitz–Scholze method for Shimura varieties of abelian type*

Teaching Experience

- Summer 2018 Instructor of record for number theory (Math 115), University of California, Berkeley
- Summer 2017 Instructor of record for number theory (Math 115), University of California, Berkeley
- 2013–2019 Graduate Student Instructor, University of California, Berkeley
